Convert XM Radio to MP3 With TimeTrax

Posted: Fri, 13 Aug 2004 10:07:37 GMT

Author: [Matt Cameron](#)

So you have the famous and ever so popular XM Satellite Radio, but you also want to record songs to [MP3](#) format for later listening? Well now you can with Nerf, which can convert your XM PCR radio into WAV or MP3 format. Instead of a single file containing an hour's worth of music, TimeTrax divides it up into individual files, each containing precisely one song. Each MP3 file is named with the artist and song title, and is written with the same information. Leave TimeTrax recording overnight, and you end up with a directory full of several hundred MP3 files, each perfectly cut and

TimeTrax doesn't guess when songs end - utilizing information in the satellite radio stream perfectly, ensuring your MP3 files are perfect, complete songs, from start to end. [Technology](#) within TimeTrax allows you to record only those artists or songs you want, making it easy to add to your list of favorites. TimeTrax is a 3.4MB [download](#) and you can find more information on the [product page](#).
